

44 CORTOMETRAJES ORIGINADOS EN 23 PAÍSES

En la intersección del cine
las artes escénicas y la ecología
el IEFF promueve cortometrajes
de artistas interdisciplinarios/as
que investigan las tensiones
entre el medio ambiente
el cuerpo
la ancestralidad
y la memoria
en paisajes naturales
urbanos y virtuales
y que se esfuerzan
por superar
los paradigmas antropocéntricos
de la performance
y la cinematografía
